Hi, Hacker!

Welcome to **UGAHacks 7!** We're all excited to have you here next weekend. We're a hackathon organized by students at the University of Georgia in Athens, Georgia. We hope to see you show off your creativity and passion for development, learning, and fun!

This year, we will be **hybrid** and we are making sure that each and every single one of you gains the full experience of our event through our virtual and in-person platforms. We will have amazing prizes to win, free swag, fun side-events, and workshops from sponsors and mentors.

Thank you for joining us this year!

What is a hackathon anyway?

A **hackathon** is a problem-solving speed run for programmers of any skill level to try their hand at creating something new. While the duration varies from event to event, the challenge remains constant: starting with nothing but a computer and a vision, **what can you build and how might it change the world?**

Why UGAHacks?

Since its inception in 2015, UGAHacks has grown to become the premier programming sleepover event in the Southeast. Host to **600+ attendees** and **14+ sponsors**, UGAHacks offers students from all over the country the chance to test their limits and realize their dreams. Whether that be through designing a novel software solution, landing an internship with a sponsor, gaining new skills in a workshop, or meeting like-minded individuals that turn into friends for life, **UGAHacks has something to offer everyone - novice and expert alike.**

Quick Facts:

- Accommodating both **hybrid** and **in-person** attendees.
- Officially endorsed by **Major League Hacking (MLH)** for the 2022 season.
- Sponsored by NCR, BlackRock, TSYS, CapitalOne, StateFarm, Deloitte, Figma, Credera, AWS, DigitalOcean, StickerMule, and echo3D, along with the University of Georgia's Department of Computer Science, Parents Leadership Council, Resident Hall Association, and Student Government Association.
- **Complimentary food, attendee swag, and more!**

MLH Code of Conduct

As a participant in UGAHacks 7, you have signed and agreed to the MLH Code of Conduct as part of your application. All participants are expected to uphold this Code of Conduct throughout the event and can face consequences such as expulsion for any misconduct. To review the full Code of Conduct, please view [the MLH Website](#).

If you would like or report any incident, you can:

1. Reach out to any UGAHacks 7 Organizer on Slack.
2. Call the MLH Incident Report line at: +1 409-202-6060 or email incidents@mlh.io

Our Website

Visit the UGAHacks 7 [website](#)! It is the main source of information about our event and will have the most up to date information.

Slack

Slack is the platform we will utilize for communication!

1. You can join the slack using the link below if you have already have an account: [Slack](#)
2. [#announcements](#) will be used for the event-wide announcements from the UGAHacks 7 Team.
3. [#help](#) is where you can go if you have any general questions about the event.

If you have any questions directed toward a specific mentor or company make sure to visit their unique Slack channel or DM them.

(continued...)

Slack (continued)

4. Directors and Organizers will be using [Director] and [Organizer] tags in their names!
5. NCR will be active for workshop help in [#help-ncr](#)
6. BlackRock will be active for workshop help in [#help-blackrock](#)
7. To browse all available channels, hover over “channels”, click the + button, and click browse channels.

Hopin

Hopin is a platform that allows for live-hybrid events. We will be using hopin for workshops, challenges, broadcast of meetings, and the sponsor fair. You are able to personalize your agenda to what events you'd like to attend. Additionally, you will be able to network with your fellow hackers and sponsors. All attendees will need to create a Hopin account, and register as an attendee in order to view broadcasts, online streams, and for judging: [Hopin](#)

The viewing screen has *5 different tabs*:

- 1.Stage for **organizer broadcasts**
- 2.Session for **workshop and side event streams**
- 3.Networking for **1-1 round-robin style interviews**
- 4.Casual Conversations for **making new friends**
- 5.Expo for **virtual tabling to meet sponsors and partners**

Devpost

All hackers will submit their projects through **Devpost**, <https://ugahacks-7.devpost.com/> by **8:00 AM EST on Sunday**. You should look at the respective sponsor's challenge requirements on what to submit, and what guidelines to follow.

The UGAHacks 7 team wants to give a shoutout here to all of our **sponsors and partners** for making our event possible!

PARTNERED WITH

This event is supported in part by the President's Venture Fund through the generous gifts of University of Georgia donors.

Sponsor Slack Channels

Each sponsor will have their own specific slack channel. Hackers can use these channels to communicate with each sponsor.

Sponsor Challenges

Some sponsors will even have their own challenges for hackers to participate in. There may even be a chance to score some sweet prizes! If you have any questions about a sponsor challenge , be sure to contact the sponsor in their respective #help slack channel, or visit their assigned room in MLC at the start of the hackathon!

Check-in

In Person Participants:

For Hackers attending the event in person at the Miller Learning Commons in Athens, Georgia, check-in will begin approximately at 5pm eastern, and check in tables will be next to rooms 101 and 102.

If you are not able to check-in before dinner on Friday, please make sure to sign-in via Hopin, and report to the organizer room ASAP to receive your hacker badge and lanyard.

Online Participants:

Online participants will need to join the [Devpost](#), and [Slack](#), and check-into the opening ceremony via [Hopin](#).

Opening and Closing Ceremonies

We will be holding an opening and closing ceremony.

Opening Ceremony

The opening ceremony will begin **6:30 PM EST Friday, February 17th** and will welcome all hackers, sponsors, and volunteers to the event. This event marks the beginning of the hackathon, and we will be covering some important information including the schedule, what we expect from the event, and who our sponsors are. We are in the business of getting everyone excited to create, explore, and innovate new technologies at our event. Following the introduction from the UGAHacks team some keynote speakers from our top tier sponsors will speak to the audience. Sponsors may cover anything from general tips and tricks to what kind of projects they expect to enter for their prizes. Needless to say, you should definitely attend this event.

Closing Ceremony

The closing ceremonies will be after the final round of judging occurs. During this event the winners of all the prizes will be announced and thank all attendees for an amazing event. The closing ceremonies will be held at **2:30 PM EST Sunday, February 20th**.

HACKS

Looking for more competitive fun?

UGAHacks is also collaborating with UGA eSports! This year, we will have a **single elimination** tournament for two games: **Super Smash Bros. Ultimate** and **Guilty Gear -Strive-**!

Be sure to **bring your controllers** (Switch/PS4/PS5, **GameCube adapter**) and **your systems** (for Smash) if you're able.

Masks are required otherwise you will be ineligible for prizes and/or disqualified immediately.

Follow the links here to register online. **Registration closes at 9:45 PM** to finalize brackets. We hope to see you there!

- [**Super Smash Bros. Ultimate**](#)
- [**Guilty Gear -Strive-**](#)

MLC 101 (Smash), 102 (GG)
Saturday 19th, 10pm - TBD

Giveaway!

We will also be giving away two "1 Free Eddie's Calzone" cards tonight!

Prizes

SSBU

1st:

\$30 Bubble Cafe
&
20k Bytecoin

GG

1st:

\$10 Ahi Hibachi & Poke
&
1 Free Eddie's Calzone
&
20k Bytecoin

Both:

2nd:

\$10 Ahi Hibachi & Poke
10k Bytecoin

3rd:

1 Free Eddie's Calzone
5k Bytecoin

Capture the Flag

Capture the Flag challenges are like cyber scavenger hunts where your goal is to find a 'flag' or key that can be redeemed for Bytecoin. Try to be the first to crack the code and climb the leaderboards! CTF challenges will be starting Saturday.

Other Side Events

Morning Yoga + Meditation

Relax and stretch your mind with Shakti Power Yoga. Will be held in MLC room 101 and 102 from 9 am to 10 am on Saturday. Bring your own blanket, yoga mat, or beach towel to participate!

Nerf Gun Fight

Battle against hackers in a game of quick wits and agility! Our Nerf gun fight will be held in the MLC Rotunda, room 314, starting at 8:15 PM on Saturday. Organizers will be present for safety or assistance.

Pokémon Showdown

Put your skills to the test with Pokémon Showdown! Attendees will be able to challenge **Hacks Organizer Helium** to a Pokémon battle from 1 pm to 3 pm on Saturday.

Midnight Movie/Anime

Every night at 11 pm, we will broadcast a movie or an anime in MLC 350. We will also be streaming online.

Board Game Room + More

Board games like Chess, Checkers, Uno, Cards Against Humanity, and more will be available for hackers. In addition, side games like Jackbox, Keep Talking and Nobody Explodes, League of Legends, and Osu! will be available online.

UGAHacks 7 Hosted tracks

The UGAHacks Team will judge across four categories:

1. Best Hardware Hack
2. Best First Time Hacker(s)
3. Best Solo Hacker
4. Best Overall Hack

How to submit?

All hackers will submit their projects through [Devpost](#) by **8:00 AM EST on Sunday**. You may enter your project to multiple challenges at this hackathon. Keep in mind, some of our challenges may have different submission requirements. However, all projects will be required to be **submitted as a post on Devpost**. For example, if you are submitting your project to two different sponsor challenges, one may only require you to create a post submission on Devpost, while the other may require a video submission. In this case, if you want to submit to both challenges, you have to fulfill the submission requirements for all challenges you plan to enter. Be creative in how you showcase your project! If you are creating a video submission, you can either directly submit the video to Devpost or give us a link to an unlisted YouTube video when you submit your project.

Swag List

- UGAHacks 7 T-shirt
- Commemorative Lanyard
- USB
- Stickers
- Digital Byte Wallpaper
- Thank You Card

Shipping

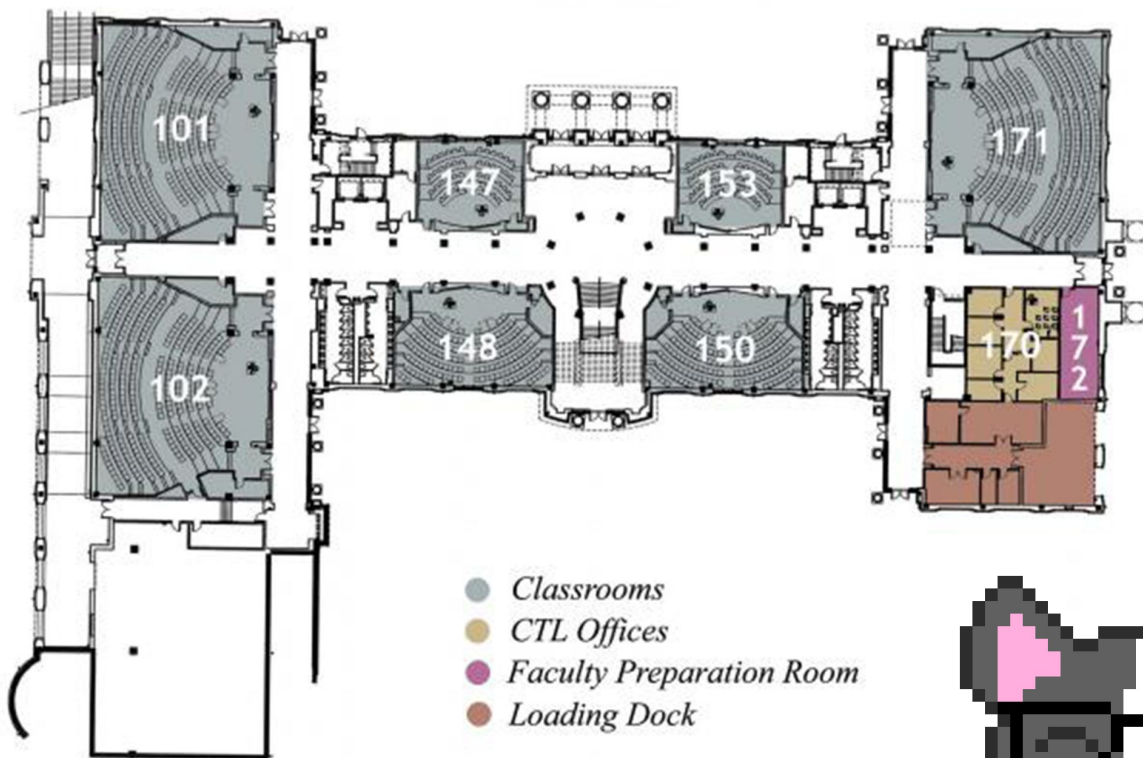

The swag will be sent to the address **(as long as it is a valid Continental United States address)** that each participant registers in the website. Addresses cannot be changed on file from the application.

Parking

Please check the parking enforcement map for details on where to park during the event: [UGA Enforcement Hours](#) & [UGA Parking Map](#)

In the event you need to pay for parking you can pay using a pay kiosk in Tate Center Deck or using the ParkMobile app.

To have access to a map of the University of Georgia's campus, please also download the UGA app to access the map feature!

Experiential Learning Credit (EL)

UGAHacks attendees are eligible for non-credit hour, creative area. We aren't a class, but we do allow students to demonstrate a dedicated skill set.

What do I need to receive EL as an attendee?

You need to be able to justify a minimum of 48 hours of applied impact.

1. Best Hardware Hack
2. Best First Time Hacker(s)
3. Best Solo Hacker
4. Best Overall Hack
